Embed ESG into Market Infrastructure – but how?

“ Bursa Sustain”
“ ESG Knowledge Hub”
“ FIRST ”
“ STAGE”

Exchanges

“ The most exciting developments in international financial markets over the last decade has been the emergence of the **green finance market**” (Euroclear)

Post-Trade Service Provider

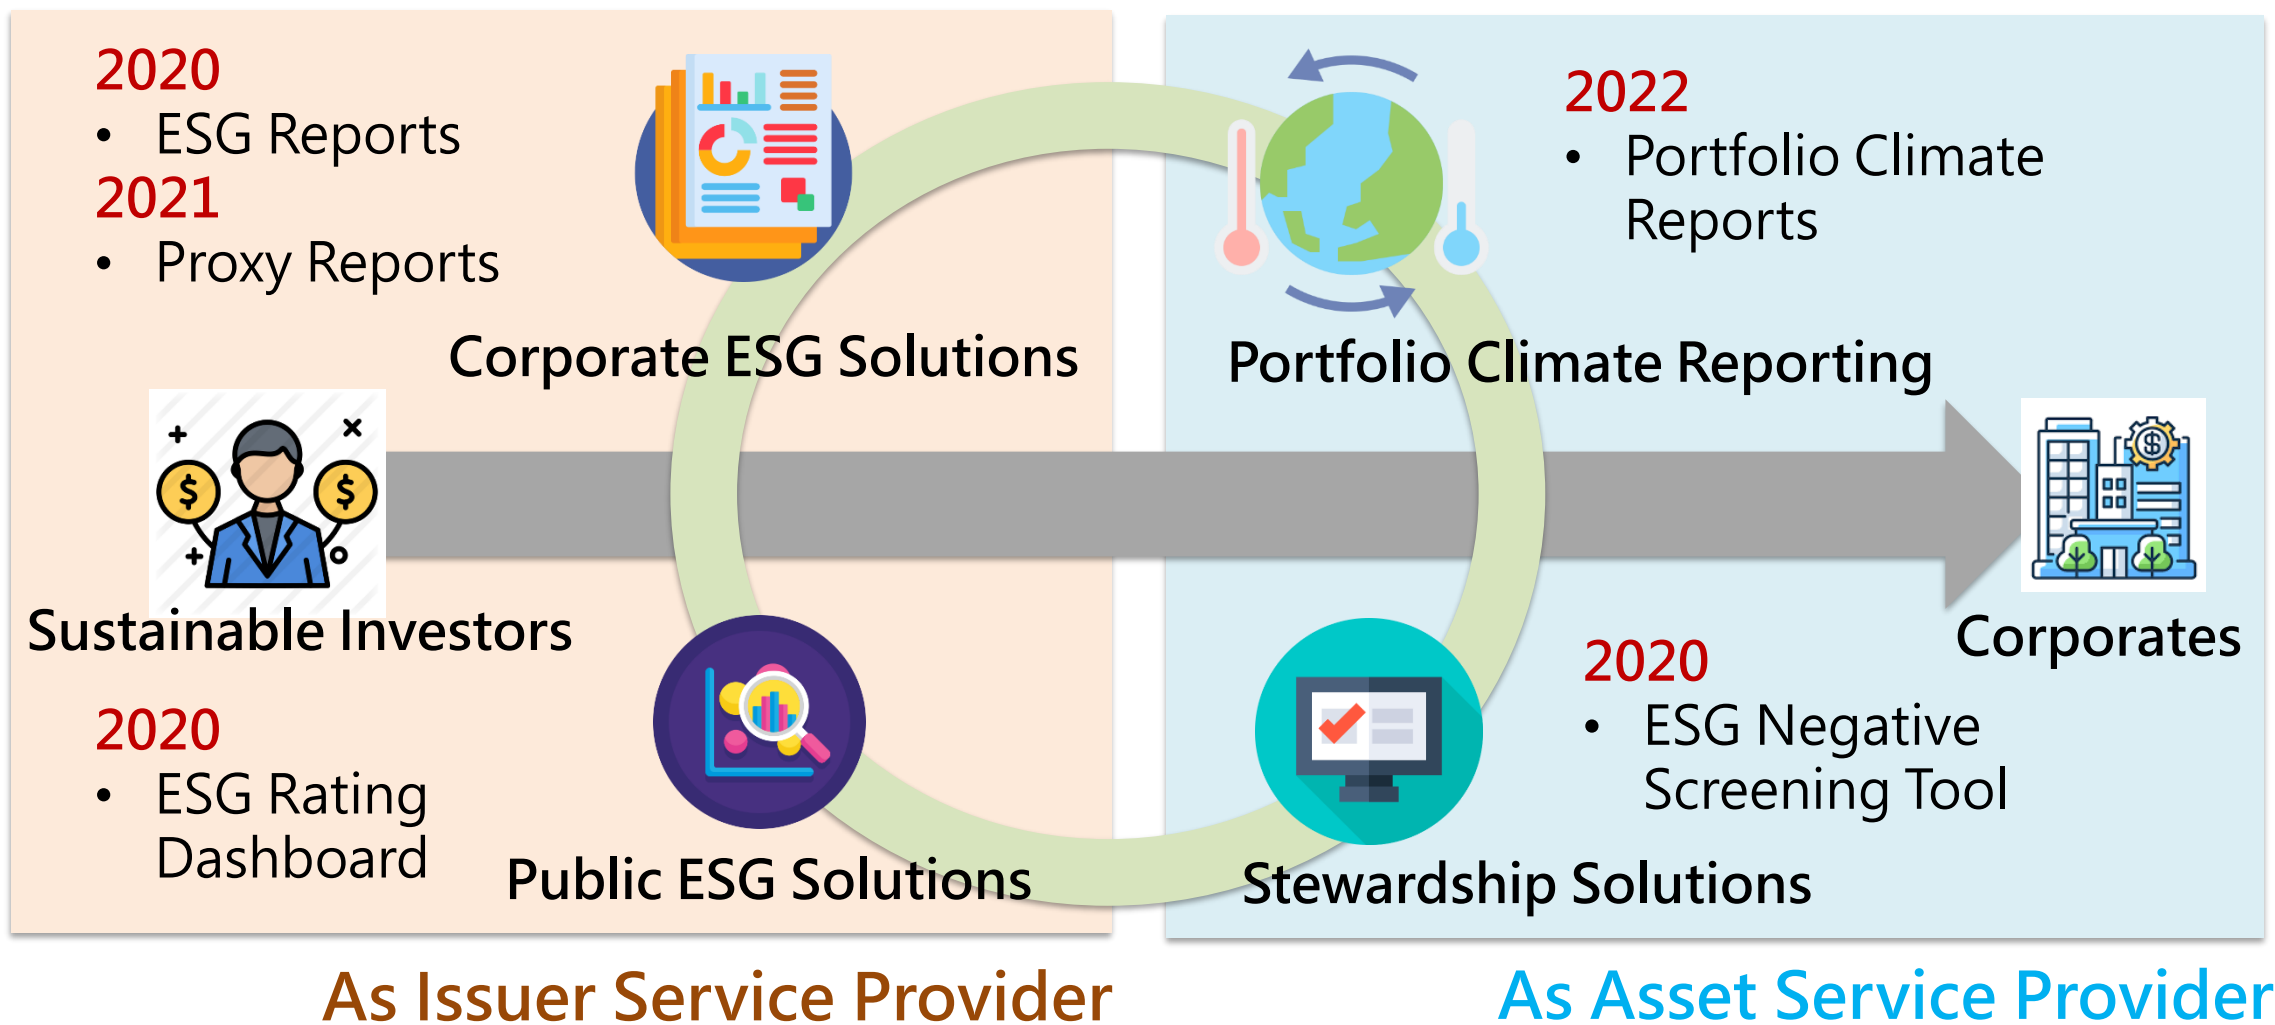

“ Companies are making corporate responsibility initiatives part of their business strategy “ (**Broadridge**)

Issuer Service Provider

“ Custodian is evolving to ensure that investors **understand the sustainability impact** of their investment decisions” (HSBC)

TDCC solutions for Sustainable Taiwan Market

Takeaway

- **Effectiveness**

In past 12 months, we see 10% increase in the average ESG score of Taiwan companies

- **Strength**

A CSD can be a good solution provider, to align market practices with policy objectives

- **First Step**

ESG rating dashboard might be a good idea, but how about start from your issuer service / asset service?
